

Announcing rice business, Crop integrated business, transportation, and services.

No Deforestation Commitment

Background: In 2016, rice business, Crop integrated business, transportation, and services. committed to deforestation-free supply chains. Our Responsible Sourcing Standard is the tool that we use to operationalize our commitment.

Definition: Zero deforestation.

This includes:

1. Not expanding or producing on:

- Areas converted from High Carbon Stock (HCS) forests and habitat such as peatland, wetlands, savannas after 31st December 2023, as defined in the High Carbon Stock Approach Toolkit.

2. Identifying, protecting and avoiding producing on High Conservation Values (HCV) lands in and around the producer territory after 31st December 2023, as defined in the High Carbon Stock Approach Toolkit.

3. Having a forest management plan in place in the case of agricultural production of rice and corn.
